PROJECT MARKS

Following are the results of your final project marking.

The project was tested in Android Studio with the following setup:

Android studio version: Ladybug feature drop 2024.2.2

Compile SDK: 35

Min SDK: 24

Target SDK: 35

Java Version: 11

Gradle plugin version: 8.8

Gradle version: 8.10.2

After cloning a fresh copy of your repository, features were tested in order that they appear in the "Done" column on your group's Trello board. Testing terminated when a feature that failed to pass the "happy path" was encountered.

Each feature was marked as follows:

zero (0)--Missing, or not graded due to earlier failures.

5 pts--Not really: present, but fails happy path.

6.5 pts--Somewhat: fails boundary values or devious input.

8 pts--Mostly: no failures, but not ready for Play Store.

9.5 pts--Definitely: no failures, could be published as-is on Play Store.

Extra features were considered only if all other features achieved "Mostly." Additionally, extra features only result in extra credit if they are marked "Mostly."

This is a really promising app with a nice visual design. I was also glad to see that the Scholar's club has the highest rating.

Section/+ Component	Mark	Score		Possible
Marks				
+ Feature 1:	**Mostly**	8	of	10
Main Activity.				
+ Feature 2:	**Mostly**	8	of	10
Restaurant fragment layout.				

+	Feature 3:	**Mostly**	8	of	10

Restaurant item layout.

Nice.

+	Feature 4:	**Mostly**	8	of	10

Search.

+	Feature 5:	**Mostly**	8	of	10

Menu fragment.

+	Feature 6:	**Mostly**	8	of	10

Menu's restaurant header.

+	Feature 7:	**Mostly**	8	of	10

Menu item layout.

+	Feature 8:	**Somewhat**	6.5	of	10

Maps fragment layout.

The distance value is blank after the first access, probably because there is no start location.

+	Feature 9:	**Not really**	5	of	10

Draw path.

The first attempt drew a path from CSIS to the Scholar's club, rather than from my location in Limerick.

I could not see a path after the first attempt.

+	Feature 12:	**Mostly**	8	of	10

Confirm order fragment.

+	Feature 10:	**Not really**	5	of	10

Order confirmed fragment.

The "Estimated Collection" initially showed May 3, even though the order was placed on 25 May. This changed to the correct date, with a different time, on the "Pending Orders" page. Also, the order number does not match that on the "Pending Orders" page.

+	Feature 11:	**Mostly**	8	of	10

Order functionality.
